

2009 MCCE Summer Technology Conference

Number of Credits Available: 1

Credit Option: **Undergraduate**

Grade Option: **Pass/No Pass**

COURSE DESCRIPTION:

This is a three-day technology conference focusing on technology and technology integration.

Teachers will have the opportunity to attend a variety of workshops throughout the three-day conference presented by classroom teachers who successfully integrate technology into their classroom activities. The workshops will range in difficulty so beginning computer-users to advanced computer-users will find valuable sessions.

COURSE CONTENT GOALS AND OBJECTIVES:

The objective of this conference is to provide Montana teachers with an opportunity to explore different emerging technologies as presented by an experienced user and educator. Hands-on and presentation style workshops will allow teachers to experiment and explore in a safe environment. Actual classroom lessons will be illustrated and attendees will have time to work on creating a lesson that effectively integrates technology.

ASSIGNMENTS:

- Attendance and participation in each session of the conference.
- Summary of each session you attended and an explanation of how you might use this technology in your classroom. **Due August 14th – email to mcceconference@billings.k12.mt.us.**
